Welcome! Are you gearing up to turn pro at WyoTech? Here is an overview of student housing options at WyoTech Daytona Beach. While we do not have on-site housing, our Student Services Department will work with you to find safe and well-maintained accommodations to fit your needs and budget.

A Choice of Great Communities
Daytona Beach, Ormond Beach and Palm Coast are communities near our campus where students have enjoyed living. Monthly rents range from $500 to $750.* Apartments typically are unfurnished, but may include utilities. Deposits vary and rent is usually due on the first of each month. Many apartment complexes are familiar with WyoTech, and may have special discounts if you mention you are a student.

Scheduled Shuttle Transportation
Students who do not have transportation may decide to ride our shuttle between select housing and the campus. The shuttle travels a specific route, space is limited, and there is a fee for this service.

*Rental information should only be used as a general guideline of what to expect. In all cases, check with the apartment complexes’ leasing agents for specific dates, costs and rental terms. WyoTech does not have control over any community-referred housing.
Sharing the WyoTech Experience

Students who live near or with other WyoTech students find it’s easier to carpool, make new friends and participate in housing activities. Students are surrounded by others who share their general interests and goals, which allows for a more supportive community. Student Services can help connect you with students who are interested in sharing the expenses of renting a place together.

Students should be prepared to bring at least enough money at the beginning of school to cover the first month’s rent, deposit and three weeks of food and gas expenses. This is estimated to be approximately $1,500.
1 Ormond Beach

The wide, smooth beaches of this community of 37,000 are just a few miles from campus, and have been home to automobile races and land-speed records since 1903.
